

The innovative 553 Zeronoise is equipped with patented temples specially designed to facilitate the combined use with hearing protection devices: the shorter terminals and the reduced sections cancel the interference with cushions avoiding the ear muff loses part of its attenuation capacity. The flexible and shaped temples give the operator comfort, and allow to wear the glasses without having to remove the ear muffs.

**Frame mark (EU)**

U EN166 FT CE

Lens mark (EU)

2C-1.2 U 1 FT K CE

Frame technologyCombined use with earmuffs - Zeronoise,
Interaction among PPE - Nexxt**Conditions of use**

Standard brightness, Low brightness
